Air Traffic Control
Sep 2016 - Feb 2021

## ABOUT ME

I am a junior front-end developer looking for employment in a friendly and developing company. Created several own projects and participated in team projects. In addition to increasing my technical skills, I have experience as a Scrum Master, which demonstrates my ability to lead and contribute to a successful project outcome through the use of the Scrum methodology. My main goal is to increase experience, learn new things and implement projects of any complexity.

## PROJECT EXPERIENCE

### Ecosolution[Next,TailwindCSS, Swiper]          View
This project is created in the format of a landing page. On this site, you can familiarize yourself with the information and submit a convenient and valid application form. It is adapted for phone, tablet and computer extensions. Role: Developer.

### Kapusta[HTML, SASS, React, Redux, Axios]          View
This is a team project in which I was responsible for implementing the following components: expense and income reporting. Specifically, the ability to enter data into a table, delete data according to categories on a selected day. Additionally, the application is responsive, adapting to phone, tablet, and computer screen extensions. Role: Developer.

### GooseTrack [React , Redux, SASS, Axios]          View
This was a team project in which we worked on the backend. We also had testers who checked the project and resolved any arising issues. In this project, my responsibility was to handle the styling and functionality of components such as the sidebar and header. I also worked on routing and navigation between pages.
Role: Scrum Master and Developer.

### Phonebook [React (Hooks, Routers, Redux, Redux Toolkit), Styled Component, Axios]          View
This is a simple phone book that utilizes the Swagger backend API. It allows users to register and log in, add, delete, and filter contacts, as well as log out. Role: Developer.

## WORK EXPERIENCE

### Sales Manager at JetUp Digital          Jul 2022 - Sep 2022
Communicated with potential clients, presented the company's services and provided advice on resolving their requests. I was responsible for prospecting new clients on various websites, negotiating deals, and resolving any issues related to their project. Additionally, I created new posts on LinkedIn to increase the number of visitors and potential clients.

### Sales Consultant at Marco Polo          Aug 2020 - Jun 2022
Achievement: increased sales plan by increasing average check and receipt length by 21%. Understanding customer needs and providing appropriate advice and product recommendations. Working in a team and assisting in problem-solving. Creating sales reports and ensuring proper reporting.
